Paper entitled:"JOINT DEMOSAICING AND DENOISING"
Dear Author,

The IEEE Signal Processing Society is constantly seeking the best papers

for its publications. As Vice President-Conferences of the Signal Processing Society, it was brought to my attention that your above paper

was rated among the top 10 % of the accepted papers . When a journal version of the work and the paper is ready, I hope you will submit it to

one of the Signal Processing Society's publications.
When you submit this work to one of the Signal Processing publications, I
ask that you include also a copy of this note. While it will not be used

to influence the review process, it will help us gather information on our
success in identifying candidates for print publication.

Let me add one final note. New IEEE guidelines require that journal papers
contain a reference to their preceding conference papers. Please make sure
that you add such a reference to your journal submission. Thank you.

Sincerely
Prof. Rabab Kreidieh Ward
VP Conferences, IEEE Signal Processing Society
