ICASSP 2005: Invitation to submit to Signal Processing journals

ICASSP 2005 <info@icassp2005.com> **Mon, Apr 18, 2005 at 4:05 PM**
To: kh237@cornell.edu, parks@ece.cornell.edu

Re: ICASSP 2005 paper entitled "Image Denoising for Signal-Dependent Noise"

Dear Author(s):

The IEEE Signal Processing Society is constantly seeking the best papers for its publications. As Vice President-Conferences of the Signal Processing Society, it was brought to my attention that your above paper was rated among the top in its category (ICASSP submissions has 11 categories.) When a journal version of the work and the paper is ready, I hope you will submit it to one of the Signal Processing Society's publications.

When you submit this work to one of Signal Processing publications, I ask that you include also a copy of this note. While it will not be used to influence the review process, it will help us gather information on our success in identifying candidates for print publication.

Let me add one final note. New IEEE guidelines require that journal papers contain a reference to their preceding conference papers. Please make sure that you add such a reference to your journal submission. Thank you.

Sincerely

Prof. Rabab Kreidieh Ward
VP Conferences, IEEE Signal Processing Society
